Diversion Data Base (DDB)

Fiscal Year 2007

July 2006 Through June 2007

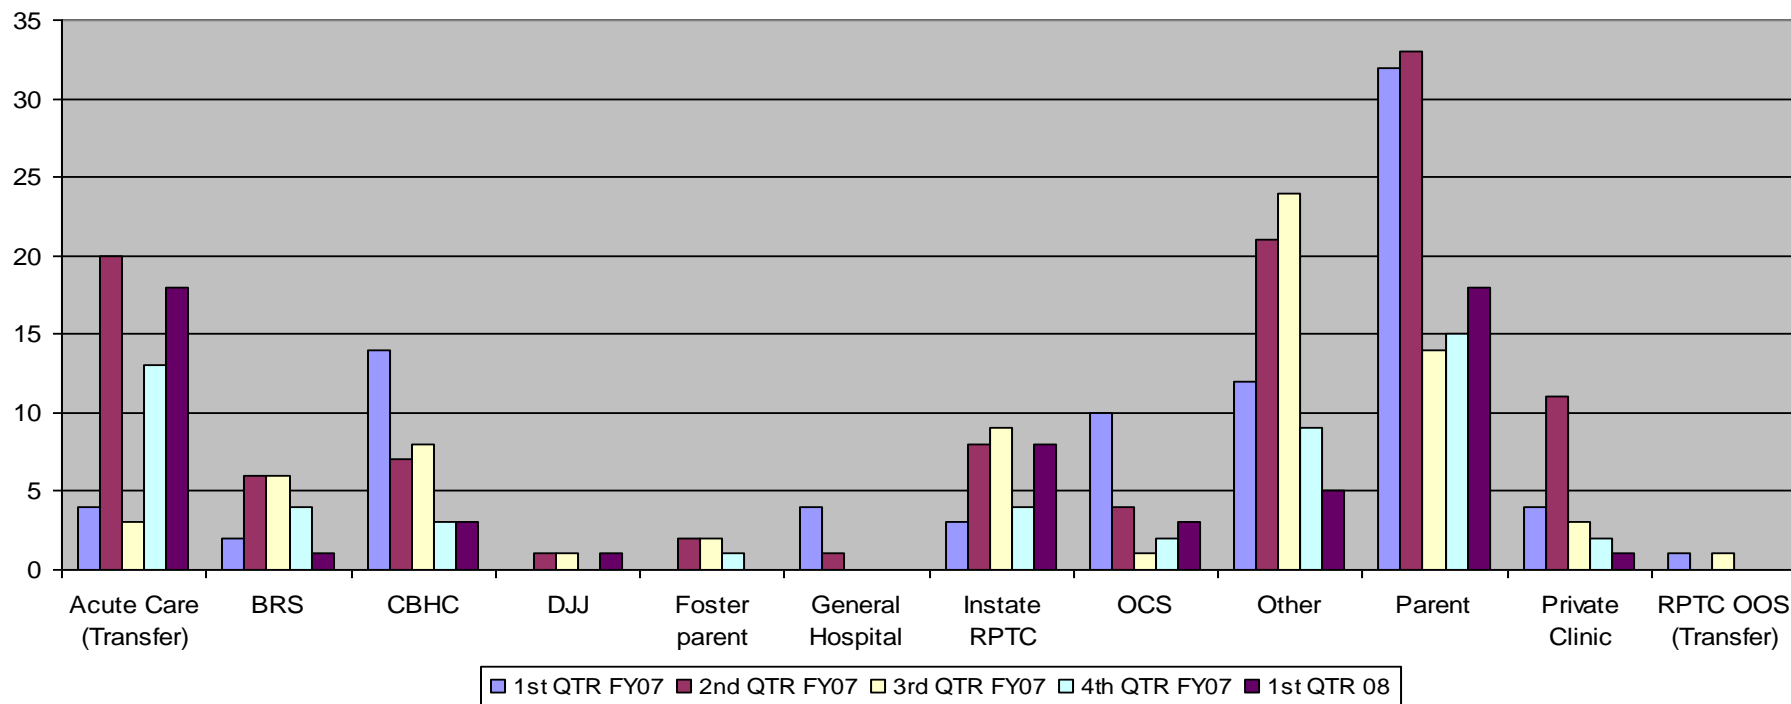

The Diversion Data Base is a record of demographic, clinical, and behavioral information about youth referred through the acute care pilot project to inpatient psychiatric facilities (psychiatric hospitals and residential psychiatric treatment centers). The data base assists the utilization review staff in performing the gate keeping function as identified in the Bring the Kids Home Initiative by providing data that identifies behavioral health treatment needs and gaps in service.
